

# SMJEŠTAJNI I RESTORANSKI KAPACITETI GRADA GRADIŠKA

## ACCOMMODATION AND RESTAURANT CAPACITY OF THE CITY OF GRADIŠKA

*Gradiška, grad na desnoj obali rijeke Save, sa zelenim prostranstvom Lijevča polja i u zagrljaju planina Kozare i Prosare.  
Gradiška, a city on the right bank of the Sava River, with the green expanse of the Lijevce Field and in the embrace of Kozara and Prosara mountains.*

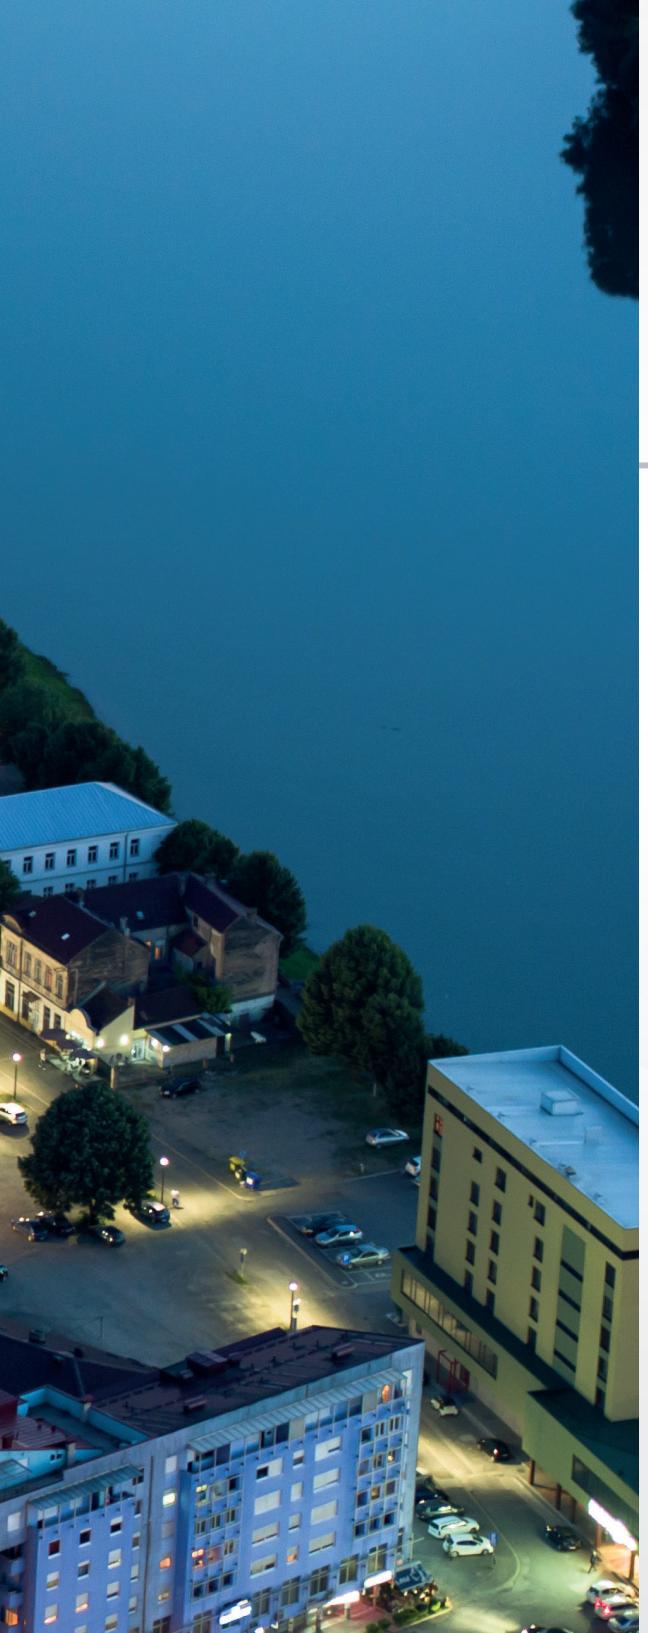

*Grad*

Gradiška nalazi se u sjeverozapadnom dijelu Republike Srpske i Bosne i Hercegovine.

Njena teritorija na sjeveru se naslanja na obalu rijeke Save, ( 58,78 km ) i obuhvata Posavinu, zatim zeleno prostranstvo Lijevča polja i brežuljkasto Potkozarje, zagrljeno obroncima planina Kozare i Prosare. Sve su ovo prelijepi krajolici koji ujedno čine tri bogate prirodne i turističke cjeline Gradiške, atraktivne za mnoge posjetioce. Od 64 opštine u Republici Srpskoj, Gradiška je sedma po površini (762 km<sup>2</sup>) i šesta po broju stanovnika (oko 50 000 po posljednjem popisu) i raspolaže sa značajnim resursima i brojnim pogodnostima za uspješan razvoj privrede i turizma.

*The city of Gradiška is situated in the north-western part of the Republic of Srpska, an entity of Bosnia and Herzegovina. Its territory on the north lies on the bank of the Sava River (58,78 km) and covers Posavina, the green expanse of the Lijevce field and hilly area of Potkozarje, embraced by the slopes of the mountains Kozara and Prosara. These are all beautiful landscapes which represent three wealthy natural and touristy wholes of Gradiska, appealing to many visitors. Of the 64 municipalities in Republika Srpska, Gradiska is the seventh in size (762 km<sup>2</sup>) and the sixth by the number of inhabitants (around 50,000 according to the last census) and has significant resources and numerous benefits for the successful development of economy and tourism.*

Na prvom mjestu ističemo da Gradiška ima izuzetno povoljan geografski položaj koji se ogleda u direktnom izlazu na rijeku Savu i daljoj otvorenosti savskim koridorom na Istok i Zapad, kao i otvorenosti kroz planinsko zaledje na jug prema Jadranskom moru. To je doprinijelo, između ostalog, da Gradiška postane glavna kapija na ulazu u BiH i RS i jedan od najznačajnijih prelaza za putnički i teretni saobraćaj sa godišnjom frekvencijom oko 2,5 miliona putnika. Posebno napominjemo, da je grad Gradiška u današnje vrijeme jedina jedinica lokalne samouprave u RS i BiH, na čijoj se teritoriji ili u njenoj neposrednoj blizini stiču četiri vida transporta (drumski, željeznički, voden i vazdušni), što će biti još više osnaženo izgradnjom mosta preko rijeke Save prema Republici Hrvatskoj i EU. Gradiška je od davnina bila važna raskrsnica starih rimske puteva prema Istoku i Jugu, tako da mnogi za Gradišku koriste poznatu sintagmu, koja je nekada važila za Rim : „Svi putevi vode u Gradišku“.

*Firstly, it should be noted that Gradiska has extremely favorable geographical position which is reflected in the direct exit to the Sava River and further openness with the Sava Corridor to the East and the West, as well as openness through the mountain hinterland to the south towards the Adriatic Sea . This contributed, among other things, to Gradiska becoming the main gate at the entrance to BiH and the RS and one of the most important transits for passenger and freight traffic with an annual frequency of about 2.5 million passengers. It has to be said that nowadays the city of Gradiska represents the only local self-government unit in the Republic of Srpska and Bosnia and Herzegovina on whose territory or its very vicinity four means of transport are present (road, rail, water and air), which will be even more strengthened when the bridge across the Sava River leading towards the Republic of Croatia and EU is built. Gradiska has been an important crossroads of ancient Roman roads to the East and the South since ancient times, so many use the famous saying for Gradiska, which used to be valid for Rome: "All roads lead to Gradiska".*

Treba dodati da Gradiška ima i druge pogodnosti kao što su povoljna umjereno kontinentalna klima, veliko šumsko bogatstvo planina Kozare i Prosare, plodno Lijevče polje i dijelovi Posavine, pogodno brežuljkasto obradivo zemljište, veliki potencijal rijeke Save, kao i bogato i šarolikoo kulturno naslijeđe u koje je utkano istorijsko prožimanje raznih naroda, kultura i civilizacija.

*It should be added that Gradiska has other benefits such as favorable moderate continental climate, large forest wealth of the Kozara and Prosara mountains, fertile Lijevce field and parts of Posavina, favorable hilly arable land, great potential of the Sava River, as well as rich and diverse cultural heritage in which the historical interweaving of various nations, cultures and civilizations is woven.*
